Frida Kahlo made careful choices when painting her portraits to tell the viewer about herself. How will you use setting, clothing, props, facial expression, and pose to share about your identity in your own self portrait?

1. Choose a setting. It can be a real place (ex: your bedroom) or you can create a set using household materials
2. Add props to the setting (ex: a pet, a favorite toy)
3. Get dressed. Remember to consider what your clothing will say about you
4. Choose your pose and facial expression
5. Ask someone to take a photo , or use self timer mode
6. Share your photo with BYP!
